## Profile

---

Software developer and Ph.D. candidate, with a Bachelor's degree in Game Development from IADE university, and a Master's degree in Artificial Intelligence also from IADE. Sound experience in full-stack web, mobile, and Internet of Things applications, as well as deep learning libraries and video game development. Strong research & development skills in various AI techniques, including classical algorithms, game AI, and deep learning models like deep reinforcement learning and neuroevolution.

## Education

---

### Creative Computing & Artificial Intelligence (MSc.), IADE Creative University

Sep. 2021 — Mar. 2024 📍 Lisbon, Portugal

Final Grade: 18/20

### Games & Apps Development (BSc.), IADE Creative University

Sep. 2018 — Jun. 2021 📍 Lisbon, Portugal

Final Grade: 17/20

### Computer Game Applications Development (BSc.), Abertay University

Jan. 2021 — May 2021 📍 Dundee, Scotland

Final Grade: 20/20

## Skills

---

### Programming Languages:

C#, C++, JS, Java, Python, SQL, HLSL, HTML, CSS, R, Kotlin, TS, Lua.

### Software Engineering:

Throughout my academic journey, I've worked on many different areas of software development, like full-stack web, mobile, and Internet of Things applications, as well as deep learning libraries and video game development.

### AI Research:

I have experience in various AI techniques, including classical algorithms, game AI, and deep learning models like deep reinforcement learning and neuroevolution.

For more information about my skills and the projects I've worked on, please visit my portfolio page at:

## Publications

---

### Master's Thesis:

Silva, P.F. (2024). An evaluation of deep reinforcement learning & neuroevolution in stealth game problems. Final Grade: 19/20  
<https://comum.rcaap.pt/handle/10400.26/52330>

### Article Under Submission:

Carraça, E. V., Rodrigues B., Franco S., Nobre, I., Jerónimo, F., Ilharco V., Silva, P. F., Silva N. M. (2025). Effectiveness of supervised vs brief counselling physical activity promotion interventions in breast cancer survivors on aromatase inhibitors: The PAC-WOMAN randomized controlled trial.

## Experience

---

**IADE, Universidade Europeia**  
*Teaching Assistant*

**Lisbon, Portugal**  
*Feb – Mar. 2022*

I worked as a Teaching Assistant at IADE Creative University, where during this time I was responsible for giving classes to students on “Web Development” in the Games Development BSc, and “Object Oriented Programming” in the Management IT BSc.

**PAC-WOMAN Project: (PTDC/SAU-DES/2865/2020)**  
**Universidade Lusófuna**  
*Research Consultant*

**Lisbon, Portugal**  
*Feb – Dez. 2024*

I contributed as a research consultant, developing systems to analyze and integrate raw data from accelerometers to a database. I participated in discussions about statistical analysis methods and database processing. Additionally, I provided solutions to enhance databases for more accurate statistical analysis using the R programming language.

## Languages

---
