Profile

Junior researcher currently pursuing a PhD in Informatics Engineering at the University of Coimbra, with a Bachelor's degree in Game Development from IADE University, and a Master's degree in Artificial Intelligence also from IADE. Sound experience in full-stack web, mobile, and Internet of Things applications, as well as Deep Learning libraries and video game development. Strong research & development skills in various AI techniques, including classical algorithms, game AI, Large Language Models, Deep Reinforcement Learning, and Neuroevolution.

Education

Informatics Engineering (PhD.), University of Coimbra

Sep. 2025 — Ongoing  Coimbra, Portugal

Temporary Grade: 18/20

Creative Computing & Artificial Intelligence (MSc.), IADE Creative University

Sep. 2021 — Mar. 2024  Lisbon, Portugal

Final Grade: 18/20

Games & Apps Development (BSc.), IADE Creative University

Sep. 2018 — Jun. 2021  Lisbon, Portugal

Final Grade: 17/20

Computer Game Applications Development (BSc.), Abertay University

Jan. 2021 — May 2021  Dundee, Scotland

Final Grade: 20/20

Skills

Programming Languages:

C#, C++, JS, Python, Java, SQL, HLSL, HTML, CSS, R, Kotlin, TS, Lua.

Software Engineering:

Throughout my academic journey, I've worked on several different areas of software development, like full-stack web, mobile, and Internet of Things applications, as well as Deep Learning libraries and video game development.

AI Research:

I have experience with various AI techniques, including classical algorithms, game AI, and Deep Learning methods such as Large Language Models, Deep Reinforcement Learning, and Neuroevolution.

For more information about my skills and the projects I've worked on, please visit my portfolio page at:

Publications

Master's Thesis:

Silva, P.F. (2024). An evaluation of deep reinforcement learning & neuroevolution in stealth game problems. Final Grade: 19/20
<https://comum.rcaap.pt/handle/10400.26/52330>

Articles as First Author:

- Silva PF, Estima J, Nobre I, Lima ES De (2026) Comparing the Performance of Off-Policy Deep Reinforcement Learning and Neuroevolution in Stealth Game Problems. IEEE Access, 14:104798–104812. <https://doi.org/10.1109/ACCESS.2026.3711834>

Articles as Co-Author:

- Nobre I, Silva MN, Franco S, Rodrigues B, Silva PF, Teixeira PJ, Carraça E V (2026) Longitudinal predictor analysis of pain in breast cancer survivors on aromatase inhibitors—the PAC-WOMAN trial. Frontiers in Pain Research, Volume 7-2026. <https://doi.org/10.3389/fpain.2026.1700365>

- Carraça E V, Rodrigues B, Franco S, Nobre I, Jerónimo F, Ilharco V, Silva PF, Palmeira AL, Silva MN (2026) Effectiveness of supervised vs brief counselling physical activity promotion interventions in breast cancer survivors on aromatase inhibitors: the PAC-WOMAN randomized controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 23(1):13. <https://doi.org/10.1186/s12966-026-01873-5>

Experience

 **CISUC, Universidade de Coimbra**
PhD Researcher

 **Lisbon, Portugal**
Sep 2025 – Current

Currently working as PhD researcher at CISUC University of Coimbra, where I mainly conduct research on the fields of Deep Reinforcement Learning, Evolutionary Algorithms, and Evolutionary Reinforcement Learning. At the research center, I have also collaborated on research projects involving Large Language Models and Reinforcement Learning from Human Feedback.

PAC-WOMAN Project: (PTDC/SAU-DES/2865/2020)
Universidade Lusófona
Research Consultant

 **Lisbon, Portugal**
Feb – Dez. 2024

I contributed as a research consultant, developing systems to analyze and integrate raw data from accelerometers into a database. I participated in discussions about statistical analysis methods and database processing. Additionally, I provided solutions to enhance databases for more accurate statistical analysis using the R programming language.

IADE, Universidade Europeia
Teaching Assistant

 **Lisbon, Portugal**
Feb – Mar. 2022

I worked as a Teaching Assistant at IADE Creative University, where during this time I was responsible for giving classes to students on “Web Development” in the Games Development BSc, and “Object Oriented Programming” in the Management IT BSc.
