Education

Creative Computing & Artificial Intelligence (MSc.), IADE Creative University

Final Grade: 18/20

Sep. 2021 — Mar. 2024  Lisbon, Portugal

Games & Apps Development (BSc.), IADE Creative University

Final Grade: 17/20

Sep. 2018 — Jun. 2021  Lisbon, Portugal

Computer Game Applications Development (BSc.), Abertay University

Final Grade: 20/20

Jan. 2021 — May 2021  Dundee, Scotland

Skills

Programming Languages:

C#, C++, JS, Java, Python, SQL, HLSL, HTML, CSS, R, Kotlin, TS, Lua.

Software Engineering:

Throughout my academic journey, I've worked on many different areas of software development, like full-stack web, mobile, and Internet of Things applications, as well as deep learning libraries and video game development.

AI Research:

I have experience in various AI techniques, including classical algorithms, game AI, and deep learning models like deep reinforcement learning and neuroevolution.

For more information about my skills and the projects I've worked on, please visit my portfolio page at:

Experience

IADE Creative University
Temporary Lecturer

Lisbon, Portugal
Feb – Mar. 2022

I worked as a Temporary Lecturer at IADE Creative University, where during this time I was responsible for giving classes to students on “Web Development” in the Games Development BSc, and “Object Oriented Programming” in the Management IT BSc.

Portuguese Government, Science and Technology Foundation
PAC-WOMAN Project: (PTDC/SAU-DES/2865/2020)
Research Consultant

Lisbon, Portugal
Jan – Dez. 2024

I contributed as a researcher consultant, developing systems to analyze and integrate raw data from accelerometers to a database. I participated in discussions about statistical analysis methods and database processing. Additionally, I provided solutions to enhance databases for more accurate statistical analysis using the R programming language.
